**Addendum No. 1****Request for Quotation (RFQ) V-2347A****New Server and Replacing Server Blades for IT**

Prospective Offerors:

Reference is made to the subject solicitation wherein the following changes are hereby incorporated:

**The NICE BUS** response to all questions received to date, shall be incorporated in RFQ V-2347A, per this Addendum No. 1.

**Question 1** Have you already got approval on the financial funds since last RFQ V-2347? In other words, is this RFQ funded? We ask the question since 120-days bid Quote availability usually will not be applicable to our bidder on one-time estimate Quote by the Server Computer manufacturer. And as the bidder, we expect the execution (and payments) of any PO or contract will be within a feasible timeframe instead of holding up by NICE because of funding issues.

**NICE BUS Response to Question 1:**

RFQ V-2347A is fully funded

**Question 2:** Shall we request for bid opening results at one day after the RFQ due date at May 19, 2025? We respect transparent bid process if NICE-Transdev can make all bidders knowing bid outcomes on time instead of waiting for up to 120 days?

**NICE BUS Response to Question 2:**

This procurement is a RFQ (Request for Quotation) – it is not an IFB (Information for Bids), as such there is no formal ‘bid opening’ in a public venue. Price Quotes will not be shared with others, nor published to the marketplace....

**Question 3:** How many VMs will be migrated?

**NICE BUS Response to Question 3:**

Twenty (20)

**Question 4:** Do you need vSphere licensing with the new servers?

**NICE BUS Response to Question 4:**

No.

**Question 5:** What type of power cords are needed?

**NICE BUS Response to Question 5:**

NEMA 5-5P- to C13 Wall plug 125 volt 15 Amp, 3 FT

**Question 6:** Should we supply cables to connect ISCSI and Network or will you supply?

**NICE BUS Response to Question 6:**

NICE Bus does not require the vendor/price quoter to furnish 6-ft and/or 20-ft cables.
